## BABOR SPA

Our range of Cosmetic Care Treatments  
at Clinic Dr. Buchinger, Bad Pyrmont

## BABOR CLASSIC

Each person is different – the same as our skin. We will indulge you with exactly the skin care you require. You will receive a deep tissue cleansing and peeling treatment which is complementary to your own particular skin type and your specific needs.

Following the cleansing treatment, we will pamper you with a luxury ampule and a self-dispensing moisturising mask. Your skin care programme will be completed with a relaxing lymph stimulation massage.

## VITALITY CHECK (INCLUDING TREATMENT)

Why not book our Skin Vitality Check for yourself – you will be astonished by the results: a “blood circulation” mask is used initially to identify hidden nutrient deficiencies in your skin and the Vitality Check supports this skin assessment. The cosmetic aftercare treatment concentrates on building up the specific deficits found in your skin Vitality Check. Optimal products are carefully matched to your skin condition in order to improve its structure.

## SKIN DIAGNOSIS

What does your skin need and what should you avoid? Discover your own personal potential for beauty. Using "high tech" skin analysis equipment, with x 80 zoom, it is easy for our specialists to recognise the condition of your skin in depth. The skin analysis assesses the current state of any wrinkles, sebum, pores, pigmentation, fat and the moisture content of your skin. It is only when you know the condition of your skin in detail that you will know and understand how to take good care of it.

## STRESS CRASH-CURE

Our Stress Crash-Cure is suitable for all skin types, ages and seasons: The treatment is efficient and has a long-lasting effect. We offer this therapy to promote good health in the "build up" process towards the end of your stay, or as a cosmetic care programme for stressed or challenging skin conditions, including unhealthy or inflamed skin. According to individual needs, three or more ampules are gently applied to your skin. The active ingredients are instantaneously dispersed beneath the top layer of your skin. This cure is concluded with a relaxing massage.

## PAMPERING & REVITALISING TREATMENT

Have you recently felt that you have no energy or that your skin is completely stressed out? Experience this pleasantly revitalising treatment, where your skin is pampered and cleansed and you will relax completely during an extensive and stimulating lymph follicle massage. This is one of our most popular massages, permitting you to start your day in a perfect way – it helps your skin and indeed your entire self to both feel and look radiant.
