A WARM WELCOME

HEALTHY LIVING WITH THE ORIGINAL BUCHINGER FASTING METHOD

In 1920, Dr. Otto Buchinger developed the ORIGINAL BUCHINGER therapeutic fasting programme as a holistic medical healing method. Today, in its fourth generation, the BUCHINGER CLINIC Bad Pyrmont is one of the world's leading clinics for therapeutic fasting, naturopathic treatments, nutritional therapy and integrative medicine.

As a result of our constant medical advancements, the ORIGINAL BUCHINGER therapeutic fasting method as well as our accompanying therapies are always up to date.

We are committed to high medical standards in a familial atmosphere. Break with old habits and look forward to a fasting experience that not only regenerates, but also opens up new perspectives.

Yours, Dr. med. Verena Buchinger-Kähler and Christian Kähler

THE ORIGINAL BUCHINGER THERAPEUTIC FASTING METHOD

We regard the human being as a unity of body, mind and soul. BUCHINGER therapeutic fasting is one of the most effective purging naturopathic methods. The goal is to cleanse body and mind. Fasting activates the human powers of self-healing so that you yourself become a key contributor to the success of your own therapy: physically and mentally fortified and "charged" with energetic vitality, you make a successful return to daily life.

MEDICINE, NUTRITION, EXERCISE, AESTHETICS AND CONTEMPLATION

That's why the holistic approach of the BUCHINGER method is based on a multidimensional therapeutic concept. Starting with the initial consultation with a doctor and a wide range of conventional medical diagnostic examinations and screening, we offer you medical, physical and manual complementary therapies, a wide range of exercise and physical activation options as well as professional nutrition and health advice. In addition to this portfolio, we offer a wide range of contemplative courses, such as meditation, tai chi, qi gong, yoga and a selection of wellness and cosmetic treatments.

BENEFITS OF FASTING IN BAD PYRMONT

- Extensive diagnostics with a holistic approach
- Personalised medical consultation
- Excellent access to a comprehensive network of clinics and specialists
- The power of 7 healing springs
- A peaceful location – right at the edge of a forest

After fasting, your awareness should be greater than the waistband of your trousers!

Dr Otto Buchinger, founder of therapeutic fasting

THE BUCHINGER METHOD

Fasting is a deliberate decision to go without solid foods for a certain period of time. Through fasting, cleansing processes in the body are triggered and self-healing powers are activated. The original BUCHINGER therapeutic fasting programme is always monitored by medical practitioners.

FEELING WELL INSTEAD OF STARVING

BUCHINGER therapeutic fasting is not a zero-calorie diet but a low-calorie drinking diet where you will take in 200 – 300 kilocalories daily. During the fasting process, you will have our especially nutrition-rich organic vegetable broth made to our original recipe, supplemented by fruit and vegetable juices, teas and mineral water. After breaking the fast, traditionally celebrated with an apple, the lacto-ovo-vegetarian building up of your diet follows with products from controlled organic farming. In this way, we guide you gently on the path to a healthy and complete diet which you will be able to integrate into your daily life.

THE BUCHINGER CLINIC IS A PLACE OF TRANQUILITY. FOR A SUCCESSFUL TREATMENT, CONSIDERATION TOWARDS ONE ANOTHER AND A CERTAIN DEGREE OF PROPER ORDER ARE ESSENTIAL ELEMENTS WHEN LIVING TOGETHER.

- 1) Due to therapeutic and medical reasons, specific rest periods must be followed during fasting. Please be mindful of the midday and night-time rest periods of all guests/patients from noon to 2 pm and from 11 pm to 7 am.
- 2) Mobile phone use is to be avoided as much as possible on the clinic grounds and is not permitted during our excursions. Mobile phone use is permitted only in your own room (ideally with the windows closed to avoid disturbing your neighbours) or in the reception hall in the main building and flower house.
- 3) Our dining and beverage rooms are mindfulness areas and mobile phone free zones.
- 4) In order for everyone to enjoy their stay without any distractions, we ask that mobile phones not be used in any of our common areas.
- 5) All meals are provided in the dining and beverage room. Only if medically necessary and with the approval of the attending doctor, you may take your meal in your room without incurring additional charges. Otherwise, you will be charged room service fees.
- 6) We kindly ask you to wear appropriate clothing when you are in the beverage room and in the restaurant.
- 7) The BUCHINGER Clinic strictly prohibits smoking and the consumption of alcohol on the entire premises, in the rooms as well as during excursions. Damage or additional cleaning services required will be charged according to the General Terms and Conditions.
- 8) During fasting, our sense of smell becomes highly sensitive. Please refrain from using perfumes.
- 9) Lighting candles or incense is not permitted in your room.
- 10) If you wish to stay away from our clinic overnight or for days at a time, the consent of the attending doctor is required.
- 11) The ability to react during therapeutic fasting is impaired in isolated cases. Therefore, some activities (such as cycling, horseback riding, driving a car) can only be performed to a limited extent. These activities should therefore only be performed after consulting the attending doctor.
- 12) The minimum age for treatment at the BUCHINGER Clinic is 18 years. Accompanied by a person with parental authority, treatment is possible from the age of 16 after prior consultation with the directorate and our medical management.

Medical supervision is guaranteed at all times, and treatments are carried out by doctors trained for this purpose or according to their instructions. The BUCHINGER Clinic is subject to the supervision of the responsible health authority (§ 47 of the Third Implementing Regulation to the Law on the Unification of the Health Care System of 30.03.1935 - RGS. provisions of the German aid ordinance (Beihilfeverordnung) and fulfil the requirements of section 107 (2) of the German Social Security Code (SGB V). The financial aid offices in the individual federal states contribute to the costs to varying degrees.

Private health insurance companies mainly classify us as a „sanatorium“. The costs of stay are only covered if a corresponding insurance policy has been purchased. Medical and diagnostic services are usually reimbursed. We recommend that you obtain written confirmation of the costs from your private health insurance company before starting your visit. You will find all the important information in the benefits catalogue of your financial aid office/health insurance company.

As a private clinic, some of our services are subject to statutory value-added taxes. In most cases, this tax is not reimbursed by the private health insurers or the state aid. All services are invoiced according to in-house rates. Please be aware that we are unable to provide an itemised invoice according to the German GOÄ (Gebührenordnung für Ärzte, the fee code for doctors) of both the medical and medical-therapeutic services and the medically prescribed individual therapies.
